Nanterre, 6 September 2006

Elyo (SUEZ Group) renews its partnership with PSA Peugeot Citroën in Ile de France until December 2011. Turnover is €143 million

ESEÏS, subsidiary of Elyo, and PSA Peugeot Citroën have signed a new contract for the provision of Facilities Management services on the sites in the Paris Region.

This contract therefore renews and strengthens the first partnership established in May 2001 between Elyo and PSA Peugeot Citroën, the operational completion of which had been entrusted to ESEÏS.

It represents turnover of €143 million for a period of almost six years.

Over a perimeter of 650,000 m² accommodating a workforce of 20,000, ESEÏS provides its services on 6 main sites, technical centres or tertiary buildings: Vélizy, La Garenne, Grande Armée, Paris 17 St Ouen, Poissy and Cergy.

The Facilities Management services provided to these extensive property assets can be broken down into 5 families:

- Maintenance of the technical facilities, construction finishing and energy management,
- Building upkeep (Cleanliness, waste management and green spaces)
- Document Processing production and distribution: duplicating, mail, folding-inserting, digitisation, filing, logistics,
- Staff support services: business centre, meeting rooms,
- Space planning: layout work and management of movements and moving operations

Design office and works management activities are to be added to these services.

Furthermore, and it is one of the major changes in this contract, ESEÏS takes charge of the total guarantee, namely major maintenance and repairs and the renewal of the main technical equipment of the perimeter. This tailored solution will prompt better reactivity and induce an asset management approach to operations.

ESEÏS achieved revenues of €47 million in 2005 and employs 280 people. It is a wholly owned subsidiary of Elyo, which is part of SUEZ Energy Services, the European leader in multitechnical services. Suez Energy Services employs 66,000 people and achieves revenues of €10.4 billion. Suez Energy Services is one of the four business lines of the international industrial group, SUEZ, quoted on the Stock Exchange. In France, Elyo achieves turnover of €2.1 billion and employs 9,800 people.
